

Articular wax in plates

Articular wax in 4mm sheets

Wax especially suitable for making occlusion records in fixed prosthesis. It comes in plates. It's very hard when cold, whilst when warm has great elasticity to make the record taking casier.

Articular wax in 2mm sheets

Easy to use, it allows rolls to be made to the desired height with great facility. It is also useful for making occlusion records.

Articular hard wax in pink plates 450g

Wax for making occlusion records of great accuracy thanks to its low contraction and memory.

Its high hardness in cold as well as a great strength to the break at this same temperature are its principal features .It also has an extraordinary accuracy in the occlusion records, it doesn't present contraccion problems when cooling down, this way the later work in lab is easier.

CODE	DESCRIPTION	UNITS	UNITS FOR BOX AND TYPE	CE
23003010	ARTICULAR WAX IN 4MM 200g	10 SHEETS	ARTPL-20	YES-CE
