

# Universal modelling waxes

## Soft light pink universal modelling wax

Multi-purpose modelling wax, ideal for removable prosthesis work where a low meltig point, good elasticity as well as an easy handling and carving are necessary.

Manufactured in light pink colour, it is one of the most common among the European professionals.

## Hard light pink universal modelling wax

Modelling wax for removable prosthesis, ideal for working in climatic conditions of high temperatures. This wax differs from the SOFT LIGHT PINK UNIVERSAL MODELLING WAX not only in the melting point that is higher, but also in its bigger hardness, as well as smaller adherence.
